

## Virtual Emergency Consultation

“Combatting H5N1 Influenza: Employing the One Health approach to prepare for, prevent, and respond to emerging health threats.”

May 16, 2024

7:30 AM PST - 12:00 PM PST / 10:30 AM EST - 3:00 PM EST

**Goal:** Promoting a One Health approach for H5N1 Influenza and other emerging health threats preparedness and response

*Anticipated outcomes of the consultation include:*

- Increased awareness of the current H5N1 Influenza situation and guidance on the threat.
- Best practices for operationalizing of the One Health approach and enabling actions for integration across sectors for agency consideration.
- Guidance for facilitation of government-university-private institution collaborations.
- Surveillance and prevention strategies (with special attention to at-risk populations).
- Consideration of need for national and state policies and actions.
- Guidance for preparedness plans including stockpiling of necessary resources and vaccine development.
- Tracking and response to early alerts in response to H5N1 and other emerging threats.

### Agenda

**7:30 AM Pacific**

**Welcome & opening remarks**

- Dean Mark Stetter, UC Davis School of Veterinary Medicine

**7:40 AM Pacific**

**Orientation to the program**

- Vice Provost Jonna Mazet, UC Davis Grand Challenges

- 7:45 AM**                      **On the frontlines - situation update**
- Dr. Marcy Uhart, UC Davis
- 8:15 AM Pacific**            **Panel: H5N1 Influenza & need for a One Health approach**
- Panel moderator: Dr. Christine Johnson, UC Davis
  - Panelists:
    - Dr. Jonathan Sleeman, US Geological Survey National Wildlife Health Center
    - Dr. Deana Clifford, California Department of Fish and Wildlife
    - Dr. Julie Paré, Canadian Food Inspection Agency
    - Dr. Richard Pereira, UC Davis Clinical Livestock & Herd Health
    - Dr. Angel Desai, UC Davis Health and School of Medicine
